

LEO Foundation Center for Cutaneous Drug Delivery

NYNNeS Yearly Meeting, 2018

University of Copenhagen, Mærsk Tower

2200 Blegdamsvej 3b, 15th floor

October 22nd, room 7.15.149

- 12:00 Lunch and registration
- 13:00 Welcome and update on NYNNeS activities
Kate Browning and Gunnar Pálsson
- 13:15 Invited Talk “Science and instrumental developments on the D7 diffuse scattering spectrometer at the ILL”
Lucile Mangin-Thro, D7 Beamline Scientist, ILL, FR
- 14:00 “Stretching time at ESS”
Heloisa N. Bordallo, Niels Bohr Institute, DK
- 14:20 Coffee Break
- 14:50 “Fate of Liposomes in the Presence of Phospholipase C and D: From Atomic to Supramolecular Lipid Arrangement”
Margaret Holme, Karolinska Institutet, SE
- 15:10 “Grazing incidence scattering: Challenges and opportunities”
Max Wolff, Uppsala University, SE
- 15:30 “Tailored bio-deuteration for structural and dynamic studies in Life Sciences”
Selma Maric, MAX IV Laboratory, SE
- 15:50 “Novel materials for magnetic refrigeration”
Johan Cedervall, Uppsala University, SE
- 16:10-17:30 Networking pitch session
All attendees have 1 slide and 2 minutes to present their work or a current problem they are working on
- 18:30 Dinner
Nørrebro Bryghus, Ryegade 3, 2200

October 23rd, room 7.15.152

- 08:50 Coffee
- 09:15 Invited Talk
Robert Dalgiesh, LARMOR Beamline Scientist, ISIS, UK
- 10:00 “The Bifrost spectrometer: Maximizing performance using the long ESS pulse”
Rasmus Toft-Petersen, DTU, DK and ESS, SE
- 10:20 Coffee Break
- 10:50 “Lipoprotein Lipid Exchange Studies: Implications for Atherosclerosis”
Sarah Waldie, Malmö University, SE and ILL, FR
- 11:10 “Understanding structure-property relationships in Li-ion electrode materials using neutron diffraction”
William Brant, Uppsala University, SE
- 11:30 Wrap up and discussion on new white paper
Kate Browning and Gunnar Pálsson
- 12:00 Lunch
